Hospital Capital Investments

This page provides information about the hospital's capital spending plans for the next four years. Capital spending is money spent on purchases and improvements to the hospital including buildings, property, and equipment. Certificate of Need (CON) projects may have changed since the publication of this report.

A Letter of Intent was filed with the State in April 2009 for replacement of a hospital wide information system, including an electronic medical record, totaling \$10 million. As a result of its decline in cash, RRMC has delayed \$4 million of routine capital expenditures in FY 2009. In addition, RRMC withdrew its \$25 million Letter of Intent to construct a new inpatient unit and expand imaging services.

¹ 2006 benchmarks are 50th percentile data from "The Sourcebook: The Comparative Performance of U.S. Hospitals", published by Solucient, LLC, and are all national groupings except for New England.

² 2008 stand-alone hospital medians from Standard and Poor's, the bond rating agency. The bond rating is one indicator of how likely it is that a hospital would be able to borrow money.

³ Rural Not-For-Profit. The grouping includes rural not-for-profit hospitals in the U.S. having a number of beds between the number shown.
